Subject: **Access approval for Miles Road Landfill**

After discussing the scope of the site reconnaissance inspection/sampling inspection Mr. McCallum gave verbal approval for access. I notified Mr. McCallum that he would be receiving an access letter in the mail prior to the initial site reconnaissance. We made a preliminary agreement of meeting on Tuesday May 11th at the site, and the time and date will be confirmed the first week in May. Mr. McCallum noted that he is retired, but that he does work on Wednesdays. He also noted that he did not consider it necessary for him to accompany on the site if it turned out he was not available when we wanted to perform the site reconnaissance.
